Clever features list

Sleek boards create a timeless and spacious aesthetic that offers simplicity and versatility making it suitable for a wide range of sizes and styles.

Build in underlay attached directly to the underside of the planks, offers excellent sound insulation, reducing noise transmission between rooms and creating a quieter environment. It also provides a cushioned feel underfoot, enhancing comfort and reducing strain on joints.

A super matt finish is more textured and less reflective which hides scratches and dust, making them less visible.

Combines a water-resistant surface with a water-resistant core to provide comprehensive protection against spills, moisture, and water, ensuring both surface and core are less affected. Ideal for more areas of your home or project.
