CARBON NEGATIVE BIO-BASED FILM

We use a bio-based film made from responsibly sourced sugar cane on the face of the underlay.

The sugar cane actively captures CO² from the atmosphere, while at the same time releasing oxygen - making this material not just green, but proactively green.

I'M MADE WITH
SUGAR CANE

FULLY SUSTAINABLE
BIO-BASED FILM
MADE IN AUSTRALIA

EVERY 1 TONNE

of our new bio-based film manufactured means that

3.09 TONNES

of CO² has been captured from our atmosphere

R0.24 THERMAL INSULATION

Great insulating properties keeps your room warm and saves energy

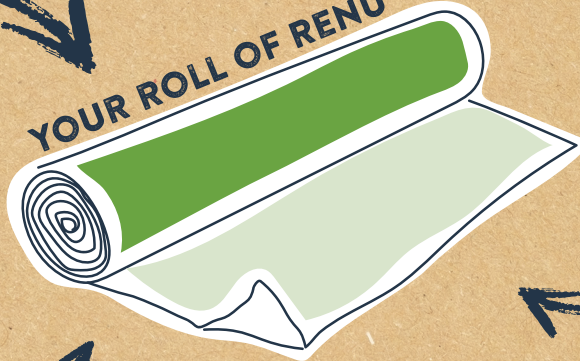

SUSTAINABLE PACKAGING

Our packaging is made from 100% recycled plastic

YOUR ROLL OF RENU

25DB

ACOUSTIC PERFORMANCE FOR PEACE AND QUIET

COMFORT GUARANTEED

Improves comfort for a soft underfoot feeling.

SUSTAINABLE FLOORING THAT LEAVES A LIGHTER FOOTPRINT

EnviroFirst represents how much we care about our planet. We are committed to protecting the environment by eliminating waste and pollution through recycling and sustainable manufacturing.
