Your flooring journey	50
Karndean Evolve™	52

From our home... to your home

It all began in 1973 when a former flooring installer created a small business from his family home.

With the belief that luxury vinyl flooring shouldn't just be practical, it needed to be beautiful as well, Karndean was formed. The team set out to travel the world, seeking inspiration from natural materials for what now are the most realistic luxury vinyl flooring products on the market.

The Karndean team worked out of that house for several years with the family's trusty dog Smokey, the Great Dane who is still present on Karndean's logo today. For the family and Karndean's early employees — many who are still working with us today — these years bring back many fond memories.

Now stretching across the globe, far beyond the walls of the original house, we continue to move forward with the same passion to deliver beautiful, innovative designs for your home.

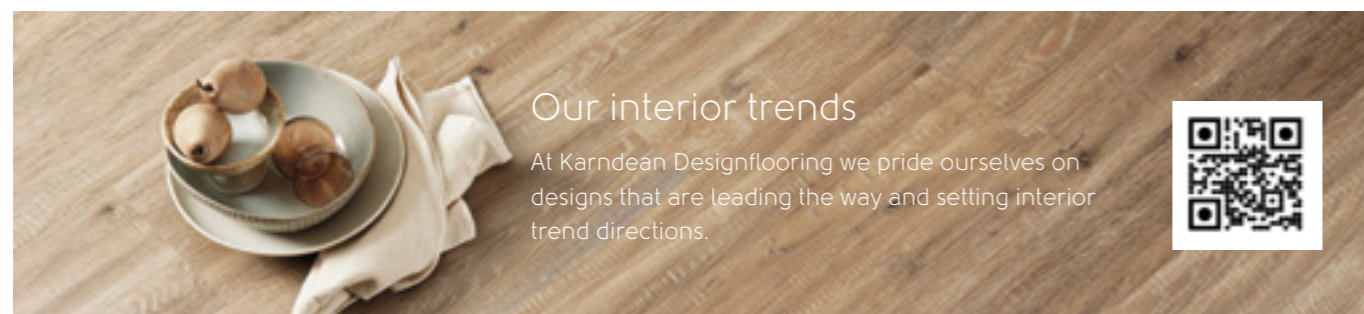

Many elements must fit together, from furniture to flooring, to fixtures and everything in between. Where to begin?

We begin a new design with inspiration, and we are most inspired by nature. What's your design motivation? Is it aesthetic, such as a cushion or the perfect paint chip? Or is it lifestyle, a place where you can dance in your pyjamas and your babies (both two and four-legged) can roll around and play?

No matter what drives you, Karndean Designflooring was created with your needs in mind. We see flooring differently and by combining original features with cutting edge design, you can create a simply beautiful floor that you will love for a lifetime.

Our simple method will help you navigate the selection process and design your perfect floor, taking you beyond picking a colour and measuring the room. Let's get started!

Our interior trends

At Karndean Designflooring we pride ourselves on designs that are leading the way and setting interior trend directions.

Designed for you

Every one of our floors is unique to us, having been lovingly created by our inhouse team. Our product designers select natural woods and stones to work with, taking the time to carefully replicate the knots, grains and textures found in these products into our designs. We apply different techniques of staining, brushing and oiling to name a few to create the perfect look and feel bringing you a simply beautiful floor.

Designed to perform

Our floors are meticulously crafted for exceptional performance in diverse settings, prioritising durability, resilience, and practicality for residential and commercial use. Engineered to endure the rigours of daily life, our floors are water-resistant and offer superior surface protection against scratches and scuffs. They are also effortless to clean and maintain, maintaining their appearance with minimal upkeep. With a focus on quality and longevity, Karndean flooring surpasses expectations, delivering lasting beauty for a lifetime.

Did you know?

Back in 1973, Smokey the Great Dane worked alongside the family and is still present on our logo today.

Low maintenance

Easy to clean with a sweep and mop. Doesn't require sanding, varnishing or staining.

Pet friendly

From muddy paw prints to household accidents and anything in-between, our low maintenance floors are designed with pets in mind.

Kid friendly

Karndean floors offer kids a safe and comfortable space to play, and parents an easy-to-clean surface.

Durable

Karndean Designflooring combines the authentic look and feel of natural materials with the added benefit of real-to-life embossing, delivering unmatched durability and the resilience of luxury vinyl.

Design capabilities

The design flexibility of Karndean flooring allows you to create your own unique and personalised look in any space.

Designed for
comfort

Quiet underfoot

Karndean Designflooring offers formats that reduce noise transfer by up to 21dB – perfect for upstairs bedrooms, playrooms or attic/loft conversions.

Laying possibilities

It's not just the floor you choose, but the direction you lay it that makes a lasting impression. From diagonal to herringbone, define your space with an intriguing laying pattern. Depending on the format you decide on.

Designed for
peace of mind

Phthalate free

We pride ourselves on environmental awareness in the manufacture and supply of all our products, and can proudly say that all Karndean products are phthalate free.

Lifetime warranty

Not only is a Karndean floor unique to your home, but it's guaranteed to last for years to come.

The design you want in the format you need

We offer our beautiful Van Gogh and Knight Tile designs in dual format.

As these are available in both gluedown or rigid core, you can enjoy the design you want, in the format you need.

Gluedown

With our gluedown ranges you have complete control over the look of your floor, from the lay pattern to the incorporation of our design strips and borders.

- Individually replaceable
- Laying possibilities
- No expansion gap required
- Individual, glued down planks and tiles

Rigid core

Our rigid core hybrid ranges feature a click-locking system that allows them to be installed over most existing hard floors, without the need for adhesive.

- Click-locking mechanism
- Reduces noise transfer
- Quick and easy to install
- Installs over most existing hard floors

Choose your format

Gluedown

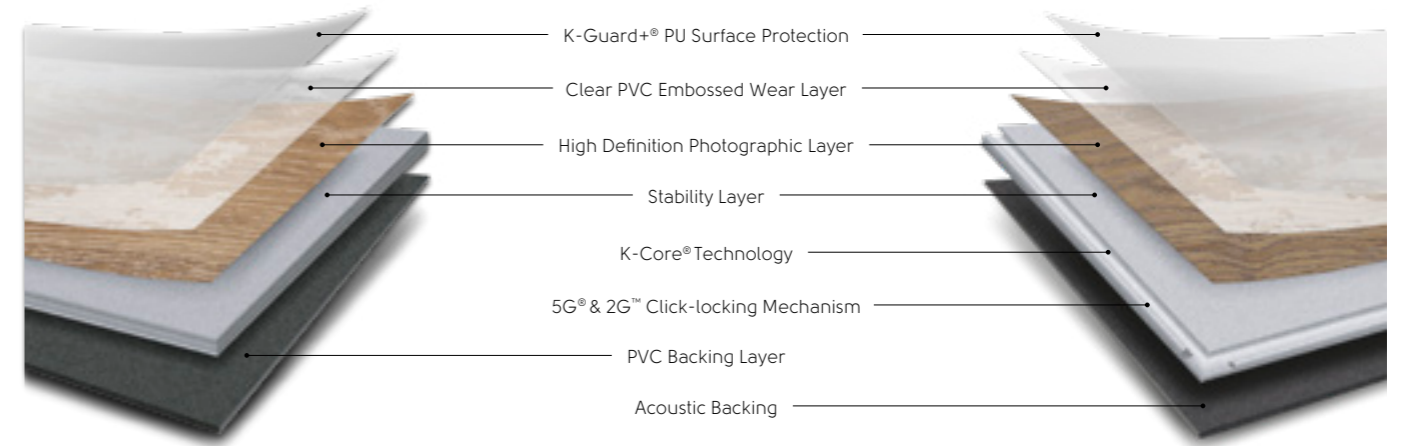

Why choose a gluedown floor?

- No expansion gap required:** Can be fitted hard up against walls and fixtures with no need for accessories to cover the gap.
- Personalisation:** With our gluedown ranges, you have complete control over the look of your floor, from the lay pattern to the incorporation of our design strips and borders.
- Glued down:** Planks and tiles are permanently secured with Mega Bond glue to the subfloor.

Rigid core

Why choose a rigid core floor?

- Installs over existing hard floors:** Rigid core can be installed over most existing hard floor coverings.
- Acoustic qualities:** The premium, pre-attached acoustic foam backing reduces noise transfer to rooms below, making it perfect for upstairs bedrooms, playrooms or attic/loft conversions.
- Quick and easy to install:** Click-locking systems allow the installer to quickly drop and lock planks together, meaning less upheaval and disruption to everyday life.

Choose your design

Van Gogh Wood

Our collection of Van Gogh woods captures the look and feel of real timber in a variety of colours and designs from traditional rustic to cool contemporary. The colour range in the Van Gogh collection offers a broad variety.

Developed by Välinge Innovation AB, this patented technology is backed by the assurance of the HoldSafe® warranty. The registered trademarks, 5G® word mark and logo, belong to Välinge Innovation AB.

Enjoy all the advantages of a floating floor with the enhanced security of our superior vertical click-locking mechanism. The HoldSafe® warranty guarantees flooring joints will stay secure for a lifetime in residential homes, provided the planks and tiles are installed according to our guidelines and used as recommended.

Installing rigid core LVT flooring

Karndean rigid core's 100% PVC 'score and snap' rigid core layer means installers are able to cut by hand without the need for expensive power tools resulting in quicker install with minimal home disruption and mess. It is essential that Karndean rigid core hybrid vinyl flooring is installed in accordance with these instructions as well as the applicable national standards and building codes for the installation of resilient flooring at the time of installation, to ensure a quality fit. Prior to installation, please check that this product is suited to the end-use application. Please scan to view the comprehensive installation instructions as well as information about expansion gaps, acclimatisation and plank/tile feathering.

Knight Tile Wood

Every plank in the Knight Tile wood collection has been designed to reflect the authentic grain detail and intrinsic characteristics of natural timbers.

*It's crucial to remember that 'high variation' is an intentional design element, adding visual intrigue to your floor by emulating the complexity of the natural world. While all our products exhibit variations (a premium feature that enhances the authenticity of Karndean products), our High Variation designs have been specifically identified by our Product Team for their exceptionally pronounced differences in shade, colour, texture, and pattern among individual planks. This sets them apart from other brands, which often provide more predictable and straightforward patterns.

about our dual formats

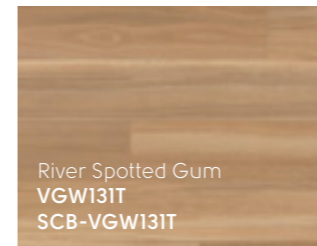

Our source of inspiration

For decades, Karndean Designflooring has led the way in durable, luxury vinyl flooring. Our designers draw inspiration from the natural world, perfecting and curating our ranges so each one is as unique as you and your space. Innovative technology and quality materials ensure you own a beautiful floor true to the natural material that inspired it.

Spotted Gum

The Spotted Gum tree flourishes in coastal areas along the eastern seaboard of Australia, ranging from the mountains of the Great Dividing Range to the sunshine coast of Queensland. Large amounts of sapwood can be seen within the boards and this adds to the blend of features that make the product so distinctive. Even when coloured, the sap creates a tonal plank that will work in all interiors.

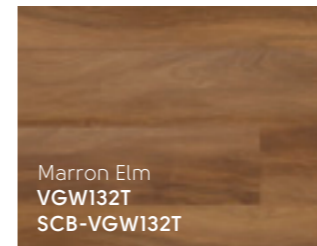

Oak

These boards were hand selected as a trusted raw material and canvas to work with. The objective was to create an even, non-tonal visual across the floor, while retaining the much-loved characteristics of the natural, prime timber. The light speckling seen within the tight grains occurs due to the rapid dehydration of the boards once felled. We then hand applied coloured oils to produce on-trend colours.

Elm

Elm trees are native primarily to north temperate areas and has been admired for centuries for their height and lush foliage. Elm wood has long been used in the construction of furniture, boats and buildings because of its natural durability. Known for its exquisite grain pattern and light to medium reddish-brown and sapwood, its grain is smooth and features a finely waved pattern.

Maple

Widely distributed in the northern hemisphere and heavily concentrated in China. Maples are one of the most popular ornamental trees for planting along streets and in parks due to their unique beauty with many displaying striking autumn colour changes. In its natural form, Maple wood is attractively creamy and warm with a pinkish tinge. The timber is fine-textured and generally straight-grained appearance.

Birch

Birch is right at home across the cooler parts of North America, Europe and Asia. Well known for their smooth, light grey-white bark which usually peels horizontally in thin sheets, especially on younger trees. Birch wood has good strength properties, is flexible and tough but not particularly hard, making the wood easy to work with. The natural wood has a yellow-white colouring and a gentle wavy grain.

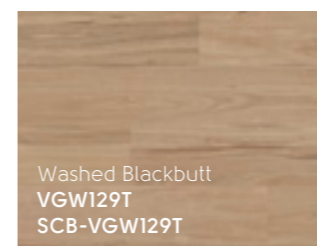

Sycamore

European Sycamore belongs to the acer family, along with maple, and features many of the same characteristics. The most striking feature of the tree is the bark pattern comprised of warm-grey outer bark that peels off in large patches to reveal the wood within. The wood has a fine, close texture and in its natural form tends to be a light, almost white colour, making it an ideal colour carrier.

Blackbutt

A quintessential Australian hardwood that takes its name from the lower half of the tree's trunk which is blackened by the fierce forest fires that both destroy, and then renew. These boards were sourced from the very north of New South Wales where thick forests merge with the beautiful coastline. Great care was taken to retain the oozing sap lines that add to the distinctive linear grain and bleed into the timber.

Kid friendly

Karndean floors offer kids a safe and comfortable space to play.

Concrete

Our designers experimented with different colouring techniques to transform the classic, neutral design into an incredibly versatile, contemporary set of concrete look tiles. Each colour option highlights different features contained within the design, and the tonal shift within the individual tiles creates a visually appealing palette. The result is an attractive product that adds a new warmth and elegance to a solid industrial material.

Smoked Concrete
ST22
SCB-ST22-18

Slate

The design team visited quarries in the Lake District, England, and sourced volcanic slate by hand, selecting pieces of this 300-million-year-old stone. Each piece was individually unique in character, and the detail of the linear markings and fractured features of the stones pair well with an active family space.

Our other ranges at a glance

Our flooring collections bring the authentic beauty of natural wood and stone into your home, replicating the intricate details and unique characteristics found in natural materials. Every design is thoughtfully crafted to reflect the rich variation of colours, shades, and textures seen in nature. With a wide range of options, from soft, light tones to deep, dark hues, and enhanced with realistic embossing, you're sure to find the perfect style to transform your living space.

Scan to view our **Home Catalogue** for more information about our vinyl flooring ranges.

Three vinyl flooring options to suit your needs

Choosing the perfect floor for your home can be a tough decision. That's why we offer our stunning, design-led flooring in three versatile formats: loose lay, rigid core hybrid, and gluedown. This way, you can enjoy the look you love with the installation method that best fits your needs. Speak with your installer or retailer to explore the options and find the ideal solution for your space.

Loose lay

Reduce noise: Ideal for loft conversions or upstairs rooms where soundproofing is important.

Quick installation: Perfect for fast, hassle-free installations.

Flat subfloor: Best for completely flat, dry subfloors prepared by a flooring professional.

Maximum versatility and stability: Suitable for most areas of use and does not require expansion gaps.

-  Individually replaceable
-  Quick and easy to install
-  Reduces noise transfer
-  K-Wave® friction grip backing
-  Laying possibilities

Rigid core

Superior acoustics: Excellent for upstairs rooms, reducing noise between floors.

Quick installation: Fast to install, even over most existing floors like tiles or floorboards.

Uneven subfloors: Versatile installation over most subfloor types, hiding minor imperfections

High durability: Perfect for high-traffic areas and homes with kids or pets.

-  Click-locking mechanism
-  Reduces noise transfer
-  Quick and easy to install
-  Installs over most existing hard floors

Gluedown

Bespoke creations: Mix wood and stone designs for a unique look.

Flat subfloor: Best for completely flat, dry subfloors prepared by a flooring professional.

Maximum durability: Suitable for high traffic areas.

Longevity: Provides long-term durability and resistance to wear.

-  Individually replaceable
-  No expansion gap required
-  Individual, glued down planks and tiles
-  Laying possibilities

Your flooring journey

For areas with high foot traffic or prone to getting wet, consider conducting independent 'in situ' slip resistance testing to verify the ongoing suitability of the flooring for these environments. Only products specifically noted as being suitable for wet areas should be used in those conditions.

To maximise the longevity of anti-slip surfaces on your Karndean floor, it is essential to follow the recommended cleaning and maintenance practices. Improper cleaning and maintenance can lead to a degradation of slip resistance, increasing the risk of slips and falls.

It's a new day

And we're ready to create a better tomorrow!

It's a continuing journey, and there are no shortcuts. Now is the time for everyone to begin taking bigger steps. Ours is a promise to think differently, act decisively, and create real change.

It's a promise to Evolve.

Five decades ago, our family-owned business was founded on innovation, bold action and a pioneering spirit. Fifty years later, those same ideals guide us forward. Because the future demands change.

It's time to create a better tomorrow.

Sustainability is a journey that requires a roadmap.

Ours is a detailed model that includes six areas of focus.

Confront climate change

Karndean's products prioritise sustainability through remarkable longevity, with a guaranteed service life of 35 years for domestic use. This extended durability has a significant positive environmental impact over time, promoting an eco-friendlier future.

Supply chain transparency

Third-party certifications for environmental and social responsibility, including fair treatment and safe conditions for workers. Karndean's factories prioritise recycled materials and recyclability, to ecofriendly product packaging, setting the benchmark for environmental responsibility. Certified manufacturing adhere to ISO 14001 and ISO 9001 standards.

Inclusion & diversity

We prioritise equity, inclusivity, and diversity, fostering them through engagement and education. In our workplace, we celebrate everyone's contributions as responsible corporate citizens. These values influence our environmental policies, responsible sourcing/trading, and contributions to communities. Our founder's principles still shape our commitment to responsible operations.

Sustainable use of resources

Karndean prioritise the use of recycled materials in their products, with all of them incorporating up to 50% recycled PVC in their backing layers, sourced from post-production waste. We validate our contribution to reducing landfill and promoting recycling.

Health & wellbeing

Karndean's products prioritise wellbeing, surpassing mere aesthetics. Free from harmful substances like heavy metals and unsafe phthalates, they're certified for indoor air quality post-installation. Our dedication to healthy interiors extends to using water-based or solvent-free adhesives, minimising VOC emissions. Your health and comfort are central to Karndean's philosophy.

Education

We educate employees about the importance of sustainability, helping them understand what role they play and devise new ways of working. By conducting CPD classes and speaking engagements with organisations like the Green Building Council of Australia, we actively contribute to the training of professionals in the design and construction.

Evolve™

Imagery and Design Reproduction

Photography and print cannot always produce a perfect representation of our products. This includes colour, pattern variation and installation elements used. For this reason we strongly recommend obtaining a product sample and where possible viewing a larger sample in-store. We also recommend visiting our website for information on installation, after care and product selection. We love developing new ideas and improving on our existing designs which means that sometimes products are withdrawn at short notice. We hate to disappoint and will work with you to find an alternative design. Please contact Customer Service for more information. It is recommended that when selecting flooring products, you verify compliance with building regulations and certification practices relevant to your local area. All Karndean range and format credentials are at our certification policy level – please check for the current certification status
